 - Competition format
 - Virtual events

Learning Targets:

I will understand what TSA is, how I can start a chapter at my school, and be able to complete the online affiliation process for TSA, including processing payments.

I will be able to discuss with my students how TSA incorporates STEM concepts, and the relation between TSA and professional development, career research and soft skills, as well as the requirements for TSA.

I will be able to explain to my students what the competitive events in TSA are, and be able to incorporate them into my CTE/STEM curriculum.

I will be able to access and use the resources that TSA has available to chapters and advisors.
